PEARL SERVICE

£1500

This service was created for wedding couples who required a high quality multi size album but would also like to have all the professional images on a DVD copyright free.

Our 30 years experience of photographing weddings will ensure a collection of beautiful and memorable wedding photographs that capture the atmosphere of your special day. Working efficiently and with good humour throughout the day, *to an agenda discussed at a pre-wedding meeting*, using a combination of Traditional and Candid photography to create the best possible imagery of yourselves and your guests.

Our coverage normally starts at the church/venue with the groom or brides arrival, *but can include starting at the Brides home F.O.C by prior arrangement*, we then follow the wedding through to the Reception where we will take photographs around the cake prior to the meal. *(If the speeches are prior to the meal, photographic coverage may be included)*

The wedding photographs will initially be presented in our unique wedding binder (*which is yours to keep*) and a viewable CD from which you make your wedding album selection.

The wedding album includes 28 pages with a combination of up to 120 multi size images (5"x3" to 10" x8") creating a wonderful record of the day including 2 -12"x10" Album Prints for those extra special images. You may purchase additional pages for the album, if desired.

When you collect your completed wedding album there will also be a DVD containing all the wedding images.

The service includes:

Award winning wedding photography by David Guest LMPA. LBIPP
